

FACULTY OF ARCHITECTURE CZECH TECHNICAL UNIVERSITY IN PRAGUE, MINISTRY OF REGIONAL DEVELOPEMENT CZ AND UNECE REAL ESTATE MARKET ADVISORY GROUP INVITE YOU TO:

INTERNATIONAL WORKSHOP HOUSING ESTATES, WHAT'S NEXT?

AS A PART OF THE EUROPEAN URBAN FORUM IN PRAGUE

Thursday 12 of October 2017

Ministry of Regional Development

Staroměstské náměstí 6, 110 15 Praha 1, Czech Republic

Housing estates represent specific parts of our cities, which undoubtedly require coherent approach regarding urban planning and municipal management. Their spatial structure with oversized public space lacks in economical as well as environmental sustainability. Because of the general public perception they are in a strong risk of social decline. However, in central eastern European context we have until now mostly dealt only with technical standard of prefab houses and have often overlooked complex problems of the areas.

How to deal now with housing estates? How to proceed their transformation into successful neighborhoods? How to minimalize the danger of social problems?

Goals:

- to meet and openly discuss the ways of the efficient implementation of recently approved UN and EU documents on housing and urban development
- to present and discuss possible approaches of the regeneration of prefabricated housing estates, especially in the context of the long-term horizon of their overall sustainability and quality of housing

Target group:

- former eastern bloc countries and countries from UNECE region with large stock of prefabricated mass housing

Languages:

- Czech and English

registration and programme: www.mmr.cz
