

ENKELEJDA HAVARI is a Research Fellow at the European Commission, Joint Research Centre (Ispra, Italy). She is part of the Competence Centre on Microeconomic Evaluation (CC-ME), Unit I.1 - Modelling, Indicators & Impact Evaluation. Before joining the Commission in 2015, she was a Visiting Scholar and Lecturer at Boston University where she taught courses on empirical economics. From 2012 to 2014 she was a post-doctoral researcher at the University of Ca' Foscari Venice. She holds a Ph.D. in Econometrics and Empirical Economics (University of Rome II) and a Master's Degree in Economics (University of Bologna). She has given several lectures and held training sessions on evaluation for both researchers and policy makers and makes extensive use of counterfactual evaluation tools in her research. Her main interests lie in the area of applied microeconometrics and impact evaluation with a special focus on labour economics, economics of education and family economics.

RAIMONDA MACKEVIČIŪTĖ has an educational background in political science. She graduated cum laude with a Bachelor's Degree from Vilnius University and received the Best Bachelor Thesis Award in the field of Public Policy Analysis. She continued her studies at the Central European University, Budapest, Hungary. At this conference Raimonda will represent Visionary Analytics - a private research institute based in Lithuania - where she works as a Junior Researcher. Visionary Analytics develops new analytical tools and applies state of the art research methods to provide EU institutions and national governments with research, evaluation, and consultancy services. Currently Raimonda and the team of Visionary Analytics are carrying out an evaluation of training financed by the European Social Fund in Lithuania, which is commissioned by the Ministry of Finance of the Republic of Lithuania. Furthermore, Raimonda is interested in public sector innovations, open government, and various practices of skills development.

ZSOLT NÉMETH is a sociologist, statistician and chief adviser to the Hungarian Central Statistical Office (HCSO). He was the HCSO's Deputy President for social statistics during 2010-2017 when his portfolio included the 2011 census and the 2016 micro census. He developed novel forms of cooperation between the HCSO, universities and research institutions. He received his Law Degree from the University of Pécs, his sociology MA from Eötvös Lóránd University, Budapest and his urban management MA from Erasmus University, Rotterdam. His Ph.D. at the Doctoral School of Earth Sciences at the University of Pécs was on urbanization and spatial social inequalities, and was awarded the Excellent Doctoral Thesis Prize. His main research interests are urbanization, spatial social inequalities, population processes and statistics as political science. He is the titular university professor

of the University of Pécs and Corvinus University, Budapest. He is the supervisory committee president of YOUMIG (Improving institutional capacities and fostering cooperation to tackle the impacts of transnational youth migration) funded by the Interreg Danube Transnational Programme.

ÁGOTA SCHARLE is the senior researcher and executive partner at the Budapest Institute for Policy Analysis, responsible for policy design, consultancy and evaluation of public policy interventions. Ágota did her Ph.D. in Economics at the University of Oxford. She worked as an analyst at the National Employment Office (1994-1996) and senior analyst and later head of research in the Hungarian Finance Ministry (2003-2008). She initiated and coordinated the drafting of a new law on access to administrative data for the purpose of research and evaluation. In her current position she has led several projects commissioned by DG Employment of the European Commission, Eurofound, the ILO, and Unicef. Her recent work has focused on the impact evaluation and design of social policy and active labour market policies for disadvantaged jobseekers, and the political economy of welfare reforms.
