Integrated Urban Development Plan of the city Ústí nad Labem

IUDP is a basic coordination framework relating to the overall vision and city development strategy to identify and address problems of developing areas of the city with the support of integrated approach.

Description

IUDP CENTRUM is a tool of the city of Ústí nad Labem that fulfils the vision: "An Attractive centre is the basis of a prosperous and safe city". This vision was developed into the global objective: "increase the urban value and attractiveness of the city centre and improve the quality of life". IUDP is linked with the Development Strategy 2015 of the city of Ústí nad Labem and other programming documents. Activities of the IUDP CENTRUM are:

- revitalisation of city centre;
- urban green;
- regeneration and revitalisation of brownfields;
- completion of construction and reconstruction of cultural and leisure facilities;
- modernisation of facilities for elderly and disabled people;
- construction works of the Municipal Building;
- modernisation of technical and technological equipment;
- personal and technical support of the IUDP management.

EU Involvement

The IUDP CENTRUM realisation will be co-financed with financial resources from the EU structural funds. For the implementation it will be possible to draw resources from the area of intervention 1.1 Support of Regional Development Poles of the priority axes 1 Regeneration and Urban Development of the program ROP NUTS II North-West Bohemia.

Jaká je vize do budoucna?

„EUKN je udržitelnou, mezivládní znalostní sítí s národními kontaktními místy ve všech ČS, působící jako centrum znalostí pro stávající síť odborníků na urbánní záležitosti na všech úrovních správy“.

Cíle:

- Posílení aliance jako vzdělávací platformy.
- Posílení kvality elektronické knihovny.
- Transformace do ESUS - leden 2011.
- Participace na strategických projektech.
- Vytvoření společného vyhledávacího systému s OP URBACT.
- Rozšíření o další členy (MoU s Eurocities).
