MINISTRY
OF REGIONAL
DEVELOPMENT CZ

Cohesion Policy and activities of the
Ministry of Regional Development
within the framework of the Czech Presidency

July 1 – December 31, 2022

EU2022.CZ

IVAN BARTOŠ

Deputy Prime Minister for Digitization
and Minister of Regional Development

The essential task of the Presidency is to provide for the continuity of functioning and direction of the European Union. Nevertheless, the Presidency also gives us an opportunity to show that we are a reliable partner to all European Union member states, and that under our leadership, Europe can continue to develop as a whole and face current threats.

European Cohesion Policy is a well-proven instrument helping to reduce disparities in the level of development between individual regions. It is the Ministry of Regional Development, which arranges for European grants focusing on economic, social, and territorial cohesion for Czech regions, municipalities and towns. Thanks to support from the European funds, we are able, for example, to improve the environment, to support innovations and economic development, modernize hospitals and railways, or preserve cultural heritage throughout the regions. Therefore, every citizen can benefit from advantages brought about by the membership in the European Union on a daily basis.

Presidency of the Czech Republic in the Council of the European Union gives us a chance to share experience and examples of good practice with other member states.
