What is the main goal of our work?

Key parameters for quality evaluations:

- I. interest and demand
- II. quality evaluator
- III. quality data
- IV. subject of performance

Challenges for the future:

- I. move away from the logic of EU funds and focus on national policy issues
- II. increased cooperation with stakeholders and national policy makers
- III. Continue to make the maximum possible use of administrative data and link it across the public administration
- IV. collaborate more with experts and the academic sector

Thanks for your attention
